

Rider – De Cocktailbar

Sizes of the cocktailbar in meters

Solo: 2,1 M (Mini)

Solo: 2,5 M (Solo)

Solo: 3,5 M (Wide)

Duo : 2,5 M (Donut)

Duo: 3,5 M (Compact)

Duo: 5, 8 M (Duo)

Duo: 7 M (Limo)

What it needs:

2 free power groups 220 V/16 amp. Close to the location of the cocktail bar.

The client has to take care of ice cubes. (10 liters/two ice buckets)

The client takes care of 100 champagne flutes. This saves the entertainers time to actually entertain the audience instead of cleaning glassware.

Two free parking spaces for small vans

A separate dressing room for two persons would be nice.

Finally:

'De Cocktailbar' is an entertainment bar. Priority is on the entertainment, not on the cocktails. The best spot for the cocktail bar is a place where the entertainers can be heard by the audience. I.E. not next to/in front of the band.

De cocktailbar takes care of:

Amazing acts with flair-bartending, magic and ballooning.

A lit bar in lounge version.

Background music

50 to 150 cocktails/shooters per evening.
